

ICONIC 007 TECHNOLOGY HIDDEN IN PLAIN SIGHT:

GENCO's DIGITAL WALLET

GENCO's digital wallets offer you a license to thrill with benefits and technology that would impress Mr. Bond himself!

CONVENIENCE

Digital wallets allow you to store payment methods (debit & credit cards) in one place. You can make quick and easy transactions using your phone, smartwatch, or other devices without needing to carry physical cards or cash.

SECURITY

Digital wallets employ advanced encryption and tokenization technologies, which makes transactions more secure than traditional methods.

FASTER TRANSACTIONS

With digital wallets, payments are processed quickly, often in seconds. This can be especially useful for in-store purchases and online shopping.

REDUCED RISK OF LOSS/THEFT

Your payment information is stored digitally and not on a physical card, so losing your wallet or a card is less of an issue.

Give it a try and you will be surprised how easy and secure it is to use.

Logon to the GENCO mobile app, tap on the Cards icon and add your debit or credit card to the digital wallet of your choice.

Maybe Mobile Banking would be more your cup of tea!

The GENCO Mobile Banking app is no secret to many of our members but it is a go to kind of gadget that allows you to move about and still have access to your accounts from wherever you are.

BENEFITS OF MOBILE BANKING INCLUDE:

- View account balances/history & make transfers
- Make Mobile Deposits
- Send money instantly with Zelle®
- Pay bills easily and on-time
- Manage your debit card or credit card alerts, payments and travel plans
- Track your credit score and view your credit report

TECHNOLOGY THAT BENEFITS YOU IS GOOD
